VIP Midsouth Consent to Treat Instructions

The purpose of the Consent to Treat is to allow other individuals the ability to access your child's information to assist in coordination of care. Individuals listed have the amount of access as indicated by your Type Code selection. If a Type Code is not selected, this individual will not be granted access.

Parents have full rights to the patient's information unless these rights have been revoked by the court. If this is the case, it is up to the custodial parent or legal guardian to supply this documentation to our office with the completed Consent to Treat. Unless this documentation is on file, we cannot legally withhold information from a biological parent. Also make sure you complete the area with specific limitations so office personnel are aware special circumstances exist.

In the case of divorced parents, both parents may complete a Consent to Treat on the patient. Our office will not contact the opposite parent when being brought to the office for medical care. Please coordinate this with one another.

The Consent to Treat must be updated in writing anytime a change is made. Once the form is amended, the previous form on file is terminated.

If you have any questions regarding this form, please do not hesitate to contact our office prior to completion.

Vanderbilt Integrated Providers
AUTHORIZATION TO COMMUNICATE MINOR'S HEALTH INFORMATION TO FAMILY AND OTHER INDIVIDUALS
